I focus on support for problems with studies, in personal life, interpersonal relationships or psychological problems - anxiety, stress management, self-confidence, balance between personal and work/study life and more. I try to tailor the counseling individually so that it helps clients to become more aware of their needs and internal resources and to remove obstacles of their growth.

I am professionally involved in crisis intervention and psychology. I studied it at Charles University, so I am familiar with its environment. Outside of counselling, I work in crisis services and generally with people in distress. I am a participant of psychotherapeutic training in biosynthesis and a graduate of a course in relaxation and meditation.

I see counselling at Charles University as a signpost where you can stop and look around to see where you are at the moment and what you need - both in professional, relational and personal issues.

I work as a psychologist, psychological coach and I'm in the supervision portion of my psychotherapy training. As a student I knew what it was like to feel uncertainty about purpose and meaning of life. Thanks to someone else I was able to get to know myself better and I would like to offer the same help to you.

I like to work with symbols and fantasy, you can imagine **therapy and coaching** as a way of opening a door. We only suspect that it exists, even though it's in our own house, within us. I would like to offer you a key, that can help you open it and see what is hidden behind the door. I like to work with topics like motivation, burnout or stress management.

Soy psicólogo, coach y terapeuta. Mi misión es despertar en los demás el deseo de ser ellos mismos. Me centro en temas como: ansiedad, estrés excesivo, pérdida de sentido, motivación y ganas (no solo) para estudiar, soledad, depresión, problemas de pareja...

Pasé un año en Valencia como estudiante Erasmus.

A five-year study of psychology was my first step towards discovering myself and, through it, the people around me. After studying in Bratislava, I went to study in Prague, where I completed a crisis intervention course, online counseling and an individual coaching course. I teach workshops on the topics of emotions, self-love, authenticity, working with stress and mindfulness. I have experience working with people with psychological problems and with victims of domestic violence. I have been working with teenagers and youth in crisis situations and difficult life periods for a long time. I am interested in a holistic view and combine body work with coaching and counseling techniques. Together with clients, we co-create a supportive space and seek unique resources for finding an authentic path through life's challenges.
