
Individual study plan / tuition

How this service helps you

Individual Study Plan (ISP) is provided in cases where, due to a student's health disadvantage, access to regular teaching (sensory or physical) is limited. This may involve teaching provided to a single student, or teaching in small groups of students with the same special needs or the same working methods.

An Individual Study Plan may include modifications to the forms of course assessment, adjustments to class attendance requirements, revisions to the study curriculum, or changes to the deadlines for fulfilling study requirements, including the deadline for advancement to the next year of study.

The exact form of an Individual Study Plan always depends on your faculty's internal regulations.

The service is provided in agreement with the contact person at the faculty , based on an officially submitted application.

If a personal meeting would be helpful, we can also connect with your contact person and go through all the options available to you together. Please don't hesitate to reach out to us – we are here to make your journey as smooth as possible on email Carolina Centre.
