
Printing of materials

When can I use free printing of materials?

The condition for free printing of study materials is to be registered as students with special needs.

Important Notice

If you plan to visit the [Digitization Centre](#) to print a large amount of study materials, please contact us first by email or phone — we will prepare your materials in advance.

For sending larger files, please preferably use file storage services or the cloud. Our email accounts have a lower receiving capacity than what your mailbox allows to send. If you send attachments by email, we might not receive them.

Thank you for your understanding.
